Enthusiastic individual eager to contribute to team success through hard work, detail orientation, and excellent organizational skills. My passion for meaningful work, continuous learning, and problem solving has led me to pursue a role as a Data Analyst. I am currently seeking an environment where my ability as an effective Data Analyst can foster growth and productivity towards team and company success.

DATA ANALYST EXPERIENCE

July 2022 - Present **Nashville Software School** Nashville, TN
Data Analyst Apprentice

Intensive full-time bootcamp focusing on data analytics fundamentals and problem solving. Used real-world datasets and included projects where findings were presented to stakeholders from the community.

- Analyzed data using Microsoft Excel, including utilizing pivot tables and lookups, and connected to external data sources using the PowerPivot add-on
- Retrieved and analyzed data using PostgreSQL
- Source code version control with Git/GitHub
- Project management/tracking with GitHub project boards and issue tracking
- Build and deploy dashboards using PowerBI and Tableau

PROJECTS

- **Lahman Baseball Project(SQL):** Collaborative project where our team explored baseball statistics up until 2016 including 20 different tables using PostgreSQL
- **2016 Summer Olympics Dashboard(Power BI):** Development of a dashboard on the 2016 Summer Olympics to explore if there is a correlation between participant counts per country and number of medals won in each country

- **Quality of Life(Python,Tableau):** During this project, I researched three major cities in the Southern United States including Nashville, TN, Atlanta, GA and Austin, TX and determined which of these cities has the best chance of having a high quality of life. The parameters I included in my analysis are the real estate markets, regional price parity, gross domestic product, average salary, unemployment rates and crime rates from 2018 to present.

PROFESSIONAL EXPERIENCE
