PROFESSIONAL SUMMARY

I have always been passionate about problem solving, more so if my problem solving helps others. Data Analytics truly combines my passion of working with real world data and my love for helping others. It allows me to help others reach their own goals, as well as my own personal goal. My goal is to always continue to grow and improve myself within the data field and outside the data field.

SKILLS

- Excel
- SQL
- Power BI
- Git/GitHub
- Kanban Boards

EDUCATION

NASHVILLE SOFTWARE SCHOOL
Data Analytics Bootcamp
Expected Graduation Jan 2023

DATA EXPERIENCE

NASHVILLE SOFTWARE SCHOOL | SEPT 2022 – PRESENT
Data Analyst Apprentice
Intensive full-time bootcamp focusing on data analytics fundamentals and problem solving. Used real-world datasets and included projects where findings were presented to stakeholders from the community.

- Analyzed data using Microsoft Excel, including utilizing pivot tables and lookups, and connected to external data sources using the PowerPivot add-on
- Built and deployed dashboards using Tableau and PowerBI
- Wrangled data and performed exploratory data analysis using Python's *pandas* library
- Created data visualizations using *matplotlib* and *seaborn*
- Gathered data through APIs and webscraping
- Performed geospatial analysis using *geopandas* and *folium*
- Retrieved and analyzed data using PostgreSQL and *sqlalchemy*
- Source code version control with Git/GitHub
- Project management/tracking with GitHub project boards and issue tracking

Projects

- Lahman Baseball: This was a group project where we collaborated on answering some questions about MLB players from a dataset that Sean Lahman created. view code
- National Park dashboard: I created a dashboard showing the types of animal and plants are in the national parks. I also showcased 4 of my favorite parks with personal photos. view dashboard (← I will link)
